- GIT
- GITHUB
- FIREBASE

ABOUT ME

Dedicated to teaching technology to children for 37 years, I decided to expand my horizons and challenged myself to study new things and learn how to develop mobile and web applications. I learned HTML, CSS, Sass, Git, GitHub, Firebase, Bootstrap, JavaScript, and React.js. Today, I seek to collaborate on projects that allow me to continue growing and create intuitive applications that solve problems and adapt to different devices.
